James,

Thanks – I agree completely.

By the way, I met with Minister Townsend yesterday and he said his brother-in-law is the director of the new opportunities division at Yotsuba and he wants to talk to him directly.

Subject: Airport shutdown

Thomas,

Thanks for drinks last night. As discussed, AeroSonic has no intention of reducing air traffic at Niibata. I agree that we need to put the interests of local residents and the public first. AeroSonic's operation of Niibata has resulted in an untenable standoff with local residents for over a year now. Awarding them Kawayu as well would lead to a major public outcry!

Regards,

James
