Dear Charles,

**Concession Agreement for Niibata International Airport**

On behalf of the Government of Republia, I would like to thank you for your continued support in the operation of Niibata International Airport—the gateway to Republia!

Congratulations are in order for the recent announcement of the airport's stellar (and record high) survey results. Niibata Airport has never been more popular.

I would like to extend my personal thanks to you for your team's hard work during these years. It has been a pleasure. Niibata Airport truly is a great place to fly! We at RIAC look forward to continuing to work with AeroSonic in the years to come. We do not yet know when Kawaya will be privatised, but it would be great to achieve success together there as well. We hope to have that opportunity.

Yours sincerely,

Thomas Haneda  
Chief Executive Officer  
Republia International Airport Company
