Re: Concession to operate Niibata International Airport

Dear Minister Townsend,

On behalf of AeroSonic, I would like to take the opportunity to thank the Ministry for awarding us the concession to operate Niibata International Airport. We are proud to have been chosen by your government and are positive that AeroSonic's operation of Niibata Airport will be beneficial to the Republian people.

I would also like to inform you about my meeting last week with James Narita, the Chief Financial Officer of Republia International Airport Company, during which I expressed our strong interest in future bidding for the concession to operate Kawayia International Airport, which, as you know, is also located in the greater Republia City metropolitan area.

Mr Narita agreed that it would make sense for one company to operate both airports.

We would be most grateful if you would consider our role in operating Niibata Airport and our strong interest in any future tender for Kawayia Airport.

AeroSonic is looking forward to co-operating with the Republian Government in the future.

Yours faithfully,

Charles Wong
Business Development Manager
AeroSonic Pte Ltd
